1. At the Executive Committee Meeting this morning:

a. Mr. Kirkpatrick announced that the President's Foreign Intelligence Advisory Board will meet on 1 and 2 April. The principal topic for discussion seems to be NRO.

b. Kirk announced that there will be a luncheon for selected alumni on Thursday, 15 April, in connection with the Educational Aid Fund. He asked the members of the Board to hold open this date for the luncheon.

c. Kirk asked me to send an official representative to Henry Ford's funeral at 11 a.m. in the Fort Myer chapel. (I sent [redacted] of the Office of Communications.)

2. I met with Gideon Cox of the Treasury Department and Emmett Echols to discuss our savings bond campaign. We agreed, among other things, that Mr. Cox would show a new movie in our auditorium and make a few remarks to our keymen and others.

3. [redacted] briefed me on their recruitment and retiree placement activities, mostly the latter. He has done a great deal of work in this area and was most encouraged with the prospects. While he has uncovered a great many possibilities, the next six to twelve months will tell us a great deal more about how many retirees we can actually place externally.

a. He said that he would not object to releasing [redacted] for an assignment to [redacted] this summer.
